```javascript
// script.js

const fetchJokeButton = document.getElementById('fetchJoke');
const jokeContainer = document.getElementById('jokeContainer');

fetchJokeButton.addEventListener('click', () => {
    fetch('https://api.chucknorris.io/jokes/random')
    .then(response => response.json())
    .then(data => {
        jokeContainer.innerHTML = `<p>${data.value}</p>`;
    })
    .catch(error => {
        console.error('Error fetching joke:', error);
        jokeContainer.innerHTML = '<p>Failed to fetch joke. Please try again later.</p>';
    });
});
```
